### **1. CALL TO ORDER**

***Mayor Larry Harris called the meeting to order at 6:00 p.m.*** with the following members present:

Mayor Larry B. Harris  
Vice Mayor Ryan Stone  
Alderman Archie Pertiller  
Alderman Ryan Stone  
Alderman Tim Raines  
Alderman Doug Hay  
Alderman Pam King

The following staff members were present:

Josh Harrold, Town Manager  
Savannah Parrish, Town Clerk  
Ron Sneed, Town Attorney  
Fred McCormick, Reporter – The Valley Echo

Mayor Harris welcomed everyone and led the Pledge of Allegiance. Fire Chief Scottie Harris led the invocation. Mayor Harris then read the following statement from Steve Woody, CEO of Avadim Health.

“Happy New Year Guys....I would love to up-date everyone.

Obviously 2020 was a difficult year with COVID and our IPO delay. The impact to Avadim was pretty straight forward....it limited the capital that the company needed to grow and launch two of the new products we had ready to put on shelves in over 50k pharmacies as well as other expansion plans.

However, the company did pivot from a high growth focus to a profitability focus so that we reduced our need for outside capital. In doing so we had our 2nd and 3rd best quarters in the history of the company even though we couldn't call on hospitals or long term facilities or even some pharmacies.

As we look to 2021 we still have some work to do to position the company for profitability and growth ....but we are launching some new products in the physician office space and in the pharmacy space that will allow the company to grow in the second half of the year. So our goal is to position the company by the end of the year for future growth and expansion as originally envisioned."

## 2. PROCLAMATIONS, AWARDS & RECOGNITION

Mayor Harris read a statement in honor of the late Jim Levine, Owen High School Athletic Director.

## 3. CITIZEN COMMENTS

Town Manager Josh Harrold read the following comments

**James Full and Courtney Halcomb** - I have faith and trust in our own Leadership and support staff that they will make well informed and fair decisions going forward.

My questions pertain the the Town will be thinking and doing. BC are going to do whatever they will do to balance the spending vs. revenue. Out of my control to input.

As you know, they announced the huge 3-year assessment increases 2 Feb 2021. That follows the last 3- year large increases.

Does the Town have an ordinance or law which restricts the levy from being more than a certain % of the property value or assessment in any given tax year? A cap?

**IF** the Town of BM leaves their levy the same as last year, **then** tax collected will increase by ~ 55 % along with the assessment increases.

Below is spread sheet table showing sample increases in assessment. (The fair market value is highly questionable based on comp sales....I am getting that info. together as well as a current appraisal)

So, I am asking the Finance Director, Mayor, Board of Aldermen, will they **decrease the levy** such that the 2021 spending budget is essential flat vs. the prior year because revenue will increase in proportion to the tax base increase?

The Town has years of history maintaining a flat to decreasing levy as the tax base and revenue have risen.

I do understand the Town has added taxable property (new construction) year-over-year which has increased spending, but offset by increased property tax collections to achieve a balanced budget.

Capital and operating costs to take Trash / Recycle in house were a net reduction in spending vs. the WastePro contract.

**Theresa Fuller** - Good evening! My name is Theresa Fuller living at 207 Rhododendron Avenue. In March of 2020, I presented the following during my opportunity to speak for three minutes. I never got any response and am so happy to see this finally being addressed.

Before moving to North Carolina, I had never heard the term alderman. My family has lived in towns where the personnel representing the town were called council members. I looked up the term alderman. It is defined as a member of a city legislative body and literally translates as “old man” in old English. Even though many local municipalities in Western North Carolina still refer to themselves as board of aldermen, it’s considered an outdated gender-specific term that many younger people don’t recognize.

Alderman was a term made back in the 1880s when no one dreamed a woman would serve office. With more women serving on town governing boards, the word aldermen isn’t representative of the modern times. Don’t you believe we should change Black Mountain’s legislative body to use the word council and council members? The word council has a great meaning of consultation and advice, which I believe our town should convey in the spirit of becoming a progressive town with non-gender titles. Vote yes for Town Council!

#### **4. COMMUNICATIONS FROM STAFF, BOARDS, COMMISSIONS & AGENCIES**

##### **A. Sunrise Owen – Isabelle Hale and Elsa Quam**

Isabella Hale and Elsa Quam addressed the Board regarding the Sunrise Owen Hub, a movement that supports The Green New Deal. The presentation covered the hub’s purpose, past actions, and goals.

##### **B. Fire Department Annual Report – Chief Scottie Harris**

Fire Chief Scottie Harris presented the annual report of the Black Mountain Fire Department. The Fire Department responded 2084 calls in 2020, with 107 of those being related to COVID-19. Chief Harris is applying for a grant in hopes to replace air tanks. Chief Harris also addressed equipment, much of which is overdue to be replaced according to National Fire Protection Association. The National Fire Protection Association also recommends more staffing than the Fire Department currently employs. 160 in 2020 the Fire Department was understaffed

according to The National Fire Protection Association. The Chief also explained that the Black Mountain Fire Department also provides mutual aid to several area fire departments.

Alderman Pam King asked if the COVID-19 vaccine had been made available to the staff at Black Mountain Fire Department. Chief Harris confirmed that it had been offered and many had already been vaccinated.

In closing, there was a discussion about Fire Department staffing, with Chief Harris emphasizing the need for more fire fighters.

## **6. CITIZEN COMMENTS - NONE**

## **7. UNFINISHED BUSINESS - NONE**

## **8. NEW BUSINESS**

### **A. Riverwalk Greenway Alignment**

Fred Grogan presented alternatives Riverwalk Greenway alignments to the Board of Aldermen. The inability to create a no-rise scenario have temporarily frozen the project and make moving forward with the original alignment potentially impossible. Mr. Grogan outlined a route featuring Scotland Road, Center Avenue and Ridgeway Avenue and an additional route that would utilize existing infrastructure with downtown sidewalks leading west onto U.S. 70. Moving forward with an on-road plan, the town would be required to add multi-use paths, like bike lanes, and additional traffic signals. Manager Harrold added that moving forward with original planning would involve purchasing the properties impacted by the lack of no-rise. Moving forward with the plan would depend on the property owner's willingness to sell.

The Greenways Commission has not received the presented alternatives and a meeting with the N.C. Department of Transportation will be held to see if other alternatives could be possible.

Alderman Pam King expressed her disappointment with the alternates being offered. Mayor Larry Harris noted a no-rise scenario is unlikely.

## **9. PUBLIC HEARING**

### **A. Public Hearing for Voluntary Annexation of property owned by Wm C Honeycutt, Jr. ETAL #O-20-20 (Continued from January 11, 2021)**

***Alderman Doug Hay moved to open the public hearing for the proposed voluntary annexation for Buncombe County PIN #0619-88-6353.00000. The motion was approved by a vote of 5-0.***

Town Manager Josh Harrold addressed density allowances in the R-1 district by summarizing an email from the county planning director. Manager Harrold also read the public comments, which are made part of these minutes.

Attorney Ron Sneed addressed the Board advising that it would be best to vote against the annexation if they planned to vote against the rezoning. He also clarified several questions about ingress/egress, which would require a site plan, which is not required.

Jesse Gardner, a representative of the property owner, addressed the Board of Aldermen clarifying that the property owner planned to develop the land in Buncombe County if the Board of Aldermen chose to annex the property.

Vice Mayor Ryan Stone addressed the Board expressing support for the annexation stating that he felt it was more beneficial for the Town if the property were developed within Town limits.

***Alderman Pam King moved to close the public hearing. The motion was approved***

*by a vote of 5-0.*

**TOWN OF BLACK MOUNTAIN BOARD OF ALDERMEN**  
**SPECIAL CALL MEETING MINUTES**  
February 25, 2021

---

**THE BLACK MOUNTAIN BOARD OF ALDERMEN**, held a special called meeting on Thursday, February 25, 2021 at 8:30 a.m. in the board room of Town Hall, 160 Midland Avenue, Black Mountain NC. The purpose of this meeting was for the Board of Aldermen to review information regarding the proposed updates to the Town Charter.

**1. CALL TO ORDER**

*Mayor Larry B. Harris called the special meeting to order at 8:30 a.m. with the following members present:*

Mayor Larry B. Harris  
Vice Mayor Ryan Stone  
Alderman Archie Pertiller  
Alderman Doug Hay  
Alderman Pam King  
Alderman Tim Raines

The following staff members were present:

Josh Harrold, Town Manager  
Savannah Parrish, Assistant to Manager/Town Clerk  
Ron Sneed, Town Attorney  
Anna Stearns, Attorney

Attorney Ron Sneed introduced Attorney Anna Stearns and explained that she had been working on revisions to the Town Charter. Attorney Stearns explained that a Town Charter is ideally a short, straightforward document. She presented the rewritten charter to the Board by explaining changes section by section.

The proposed rewritten charter is included and made part of these minutes.

Attorney Stearns reminded the Board that should they update compensation of the mayor and councilmembers that the change could not go in effect during the current terms of office of any councilmember enacting the ordinance.

She also reviewed changing Section 2.4 to reflect the current practice of the Board to meet at 6 p.m. and to hold the organizational meeting in December following the elections.

The Board also reviewed the changes regarding the length of appointments when filling vacant seats on the board.

Section 3.1, Council-Manager Plan of Government, was updated to consistent with the General Statutes, and to make the language referring to the town manager gender neutral.

Town Clerk, Savannah Parrish, read a public comment submitted via email by Shawn Slome

“It is my understanding there is no State Statute requiring disclosure of conflicts of interest by advisory boards and elected bodies. This does not promote transparency in governance nor serve the interests of our Town. For example, the former Mayor was NOT required to disclose that he owned 8 acres adjacent to the Town Property when it was considering a lease to the Day Care despite the facts that the development would have increased the value of his property substantially. I believe there are some similar questions relating to conflicts of interest of those serving on the Planning Board. Can the Town Charter include a requirement that all those serving on Boards and Commissions disclose potential or perceived conflicts of interest?”

This comment led to a brief discussion concerning conflicts of interest and Chapter 160D- Local Planning and Development Regulation. All local governments must be in compliance with the new regulations by July 1, 2021.

Mayor Harris asked the attorneys if the board should consider adding special assessments to the charter, which Attorney Sneed did not recommend.

The Board of Aldermen will vote on an ordinance to change the name of the body to Town Council at the regular session meeting on March 8, 2021. They will also vote on a call for public hearing to consider updates to the Town Charter.

***There being no further discussion Mayor Larry Harris adjourned the meeting at 9:24 a.m.***

WHEREAS, the existence of an interactive trail as described by Major to help kids with autism and other mental and developmental differences is in the public interest as it will provide an opportunity for exercise and encourage exercise, in keeping with the town’s objective of encouraging healthy lifestyles and activities.

NOW, THEREFORE, in consideration of the premises and the mutual covenants hereinafter set out, the parties agree as follows:

1. Major may paint an interactive path along the Oaks Trail and/or the walkways providing access to and around the community garden.
2. Before the painting is done, a drawing or other representation of the paintings and their locations shall be approved by Josh Henderson.
3. Major will use materials for painting that are as environmentally safe as practical, while using materials that will be durable and not require constant repainting, as this will become the expense of the Town once Major is no longer

around to maintain the paintings, and it is in the best interest of Major and the Town for the paintings to remain in good condition and clearly legible so that the purpose of the paintings can continue to be fulfilled.

4. The Town will be under no obligation to maintain the paintings, and may remove them if they are not used for the purposes intended, become faded and require maintenance beyond the Town's budget and ability to maintain or repaint them, or if the Oaks Trail or the pathways around the community garden have to be resurfaced and the Town chooses not to have the paintings replaced.

Dear Mr. Henderson

Hi, My name is Anna Faith Major. I am an 11th grader at Owen High School and I'm also a Girl Scout Ambassador. I was hoping that I could partner with you for my Gold Award project. A Gold Award is the highest level award that a girl scout can achieve.

For this project I would like to paint an interactive path along the Oaks Trail or community gardens to encourage children to exercise through creative play.

Through this project I hope to help kids with autism and other mental and developmental differences because a pathway like this can build and strengthen children's sensory pathways and connections in the brain. This project will also create a good way for families to bond together and give young children something to do while their siblings play soccer or baseball or parents work in the community garden. It encourages kids to move a little more than just walking the trail and have fun playing outdoors. It will also create a unique spot for tourists to visit and highlight greenways.

To accomplish this I would research and design elements that best meet these goals and are aesthetically pleasing while consulting with professionals to develop an overall layout. Then I would create stencils and oversee a painting team of volunteers from the community to paint elements on the paved walkway. Finally, I would host a town dedication and publicize information about this path. So that there is no cost for the town, I will fundraise and use my Girl Scout cookie earnings.

I hope that you will consider this project and be willing to partner with me to make our town a unique and fun place for children. Please let me know what you think.

Thank you for your consideration,

  
Anna Faith Major

## **ARTICLE II. – TOWN COUNCIL**

### **SECTION 2.1. CREATION**

(A) Except as otherwise provided in this charter all powers of the town shall be vested in a town council comprised of (5) members and a mayor nominated and elected from the town at large in the manner hereinafter provided. The mayor and members of the council shall be qualified voters and residents of the town.

(B) Elections for mayor and councilmembers shall be held on a nonpartisan basis in even-numbered years on the Tuesday after the first Monday in November. The names of the candidates shall be printed on the ballots without reference to any party affiliation, and any qualified voter residing in the town shall be entitled to vote on such ballots. Results shall be determined using the plurality election method in accordance with N.C.G.S. § 163-292, as the same may be amended or renumbered from time to time. Elections shall be held and conducted in accordance with the general laws governing elections for county municipalities.

(C) The term of office of the mayor and councilmembers shall be four years and until their successors are elected and qualified and shall begin on the first Tuesday of December next following their election. Terms of office for councilmembers shall be staggered in accordance with Session Law 2019-27 of the North Carolina General Assembly.

(D) The mayor or any councilmember ceasing to possess any of the qualifications specified in this section, or convicted of crime while in office, shall immediately forfeit office.

In the event such vacancy occurs within 135 days of the next general election, the person appointed by the council to fill the vacancy shall serve the remainder of the unexpired term. Otherwise, a successor shall be elected at the next general election and the person appointed to fill the vacancy shall serve only until the elected successor takes office. The elected successor shall then serve the remainder of the unexpired term.

## SECTION 2.3. COMPENSATION OF MAYOR AND COUNCILMEMBERS

The mayor and each councilmember shall receive a salary, the amount of which shall be prescribed by ordinance. No ordinance fixing or changing the salary of the mayor or any councilmember shall become effective during the current term of office of the councilmembers enacting such ordinance.

## SECTION 2.4. MEETINGS OF THE TOWN COUNCIL

Before entering upon the duties of their offices, the newly elected mayor and/or councilmembers shall severally make oath before the town clerk or some other person authorized by law to administer oaths to perform faithfully the duties of their respective offices. Thereafter the council shall meet at such times as may be prescribed by ordinance or resolution, but not less frequently than once each month. Special meetings shall be called by the clerk upon the written request of the mayor or two members of the council. Any such notice shall state the subject to be considered at the special meeting and no other subject shall be there considered. All meetings of the council shall be open to the public and the rules of the council shall provide that citizens of the town shall have a reasonable opportunity to be heard at any such meetings in regard to any matter considered thereat; provided, however, that the council may, by a two-thirds vote of all the members, authorize an executive meeting, which may be closed to the public as authorized by law.

## SECTION 2.5. MAYOR AND MAYOR PRO TEM.

(A) The mayor shall preside at meetings of the council and shall exercise such other powers and perform such other duties as are or may be conferred and imposed upon him by the general laws of North Carolina, by this charter and the ordinances of the town. The mayor shall be recognized as the head of the town government for all ceremonial purposes, by the courts for serving civil processes, and by the Governor for the purposes of military law. In time of public danger or emergency the mayor shall, if so authorized and directed by vote of the council, take command of the police, maintain order and enforce the law.

(B) At its first meeting in the month of December following a regular municipal election, the council shall choose one of its members as vice mayor, who shall act as mayor pro tem. ## SECTION 2.8. ORDINANCES AND RESOLUTIONS

(A) Ordinances and resolutions shall be introduced to the council in writing.

(B) All ordinances, except ordinances making appropriations and ordinances codifying or rearranging existing ordinances or enacting a code of ordinances, shall be confined to one subject, and the subject, or subjects of all ordinances shall be clearly expressed in the title.

(C) Ordinances making appropriations shall be confined to the subject of appropriations.

## Results of 2020 Audit

- Our Responsibility Under Auditing Standards Generally Accepted in the United States of America (GAAS) and *Government Auditing Standards* (GAS)
  - Our audit was performed in accordance with GAAS and GAS.
  - We considered the internal control structure for the purpose of expressing our opinion on the Town’s basic financial statements and not for the purpose of providing assurance on the internal control structure.
  - Our objective is to provide reasonable—not absolute—assurance that the basic financial statements are free from material misstatement.
  - The basic financial statements are the responsibility of the Town’s management.
- Report on 2020 Basic Financial Statements
  - Unmodified (“clean”) opinion on basic financial statements.
  - Presented fairly in accordance with accounting principles generally accepted in the United States of America (GAAP).
  - Our responsibility does not extend beyond financial information contained in our report.
- Report on Internal Controls Over Financial Reporting and on Compliance in Accordance with GAS
  - One (1) material weakness in the Town’s internal control over financial reporting.
  - No instances of noncompliance reported.

## Results of 2020 Audit (Continued)

### ■ Finding 2020-001: Segregation of Duties

- Segregation of duties is an important concept in a sound internal control environment. Although the size of the Town's staff is an impediment, it is important that certain incompatible duties be assigned to different individuals and/or compensating controls be implemented. The following are areas where we noted a lack of segregation of duties in the Town's financial operations:
  - The accounts payable position has access and authority over all stages of the disbursement process. This position has the ability to create purchase orders, is responsible for reconciling the purchase orders to the incoming invoices, is responsible for generating and printing the checks, and is responsible for reconciling the cleared checks from the bank statements each month.
  - Manual journal entries can be initiated, approved, and posted by the same individual.
  - The monthly bank reconciliations can be performed and reviewed by the same individual.
- Failure to properly segregate duties or implement compensating controls can lead to misappropriation of funds or abuse of the system that could go undetected. We recommend the Town segregate duties and/or implement compensating controls in the key areas noted above.

# Required Communications

## ■ Significant Accounting Policies

- The significant accounting policies used by the Town are described in Note 1 to the basic financial statements.
- The Town was not required to implement any new accounting standards in the current year's report.
- In considering the policies used by the Town, we noted they are in accordance with generally accepted accounting principles and similar government organizations with no significant new policies or qualitative aspects of its policies. The Town is not involved in any controversial or emerging issues for which guidance is not available.

## ■ Management Judgment/Accounting Estimates

- The Town uses various estimates as part of its financial reporting process – including the useful lives of the Town's capital assets and actuarial assumptions related to its pension (LERS and LEOSA) and other postemployment benefit (OPEB) obligations.
- Management's estimates used in preparation of the financial statements were deemed reasonable in relation to the financial statements taken as a whole. We considered this information and the qualitative aspects of management's calculations in evaluating the Town's significant accounting estimates.

## Required Communications (Continued)

### ■ Financial Statement Disclosures

- The footnote disclosures to the financial statements are also an integral part of the financial statements and the process used by management to accumulate the information included in the disclosures was the same process used in accumulating the statements. The overall neutrality, consistency, and clarity of the disclosures was considered as part of our audit.

### ■ Relationship with Management

- We received full cooperation from the Town's management and staff.
- There were no disagreements with management on accounting issues or financial reporting matters.

### ■ Audit Adjustments

- There were several adjustments posted to the trial balances provided to us by the Town for audit; however, the majority of these entries were provided to us by the Town and were not considered audit adjustments.
- There were no passed audit adjustments.

### ■ Representation from Management

- We requested written representations from management relating to the accuracy of information included in the financial statements and the completeness and accuracy of various information requested by us, during the audit. Management provided those written representations without a problem.

## Required Communications (Continued)

- Consultation with Other Accountants
  - To the best of our knowledge, management has not consulted with, or obtained opinions from, other independent accountants during the year, nor did we face any issues requiring outside consultation.
- Significant Issues Discussed with Management
  - There were no significant issues discussed with management related to business conditions, plans, or strategies that may have affected the risk of material misstatement of the financial statements.
- Information in Documents Containing Audited Financial Statements
  - Our responsibility for other information in documents containing the Town's basic financial statements and our report thereon does not extend beyond the information identified in our report. If the Town intends to publish or otherwise reproduce the financial statements and make reference to our firm, we must be provided with printers' proof for our review and approval before printing. The Town must also provide us with a copy of the final reproduced material for our approval before it is distributed.
- Auditor Independence
  - In accordance with AICPA professional standards, M&J is independent with regard to the Town and its financial reporting process.
  - There were no fees paid to M&J for management advisory services during fiscal year 2020 that might effect our independence as auditors.

## Financial Trends – General Fund Revenues and Expenditures

## Comments & Other Matters

### ■ Recommendations in Management Letter

#### **Purchasing Manual**

During our documentation of the controls surrounding the accounts payable and expenditures, the Town does not have a current purchasing manual that defines restrictions on purchasing of goods or services from governing body members, employees, or other suppliers that would create a conflict of interest. As a recipient of Federal funding, the Town should have a formal policy in place that addresses such items and we recommend the Town updates or amends its current purchasing policy to ensure that these items are addressed.

#### **Vendor Master File Reviews**

The Town does not currently review or actively maintain the Town's vendor master file. In accordance with a sound internal control environment and as a mitigating internal control due to the small size of the Town's staff, we recommend the Town periodically review the master file for any unusual or suspicious vendors, as well as to remove any authorized vendors which the Town no longer wishes to do business.

### ■ Recommendations in Management Letter (Continued)

#### Information Technology Monitoring Controls

In today's Information Technology environment entities can outsource many areas of its operations, including all or part of any service, process or system operation. Outsourcing of technology-related services may improve quality, reduce costs, and strengthen controls. The decision to outsource should fit into an entity's overall strategic plan and the Town's objectives, and the degree of oversight and review of outsourced activities should depend on the criticality of the service, process or system to the entity's operation. We recommend that the Town develop a comprehensive vendor risk management process to govern their third party service provider relationships. This process should include risk assessment, selection of service providers, contract review, and regular monitoring of service providers. Outsourced relationships should be subject to the same risk management, security, privacy, and other policies that would be expected if the entity were conducting these activities in-house. At least annually, the Board of Aldermen should ensure an independent review of the entity's vendor risk management process occurs.

### ■ New GASB Pronouncements for Future Years

- GASB Statement No. 84, *Fiduciary Activities*, is applicable for the Town’s fiscal year ended June 30, 2021. The Town currently reports one (1) agency fund that will need to be re-examined under the new standard and determinations will need to be made whether this fund can remain an agency fund (renamed a “custodial fund” under the new standard) or if the activity of the fund needs to be brought into the Town’s other governmental funds. The focus will be on (1) whether the Town is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom the fiduciary relationship exists. All fiduciary funds will require a statement of changes in fiduciary net position.
- GASB Statement No. 87, *Leases*, will require all lease agreements to be recorded as a liability under full accrual accounting. Many of these leases were previously considered operating leases and payments were expensed as incurred with no liability accrued. Applicable for June 30, 2022.
- GASB Statement No. 96, *Subscription Based Information Technology Arrangements*, or “SBITAs”, incorporates much of the guidance contained in Statement No. 87 and applies that guidance to arrangements where the Town is, in essence, leasing IT assets. This Statement will require all SBITAs to be recorded as a liability under full accrual accounting with an offsetting right-to-use asset. Applicable for June 30, 2023.

### ■ Other Matters Currently Being Considered by GASB

Such employees shall not be employees of, or have any individual contractual relationship with, the Agency.

**Subcontracting:** To subcontract work to be performed under this contract which involves the specialized skill or expertise of the Grantee or his employees, the Grantee first obtains prior approval of the Agency Contract Administrator. In the event the Grantee subcontracts for any or all of the services or activities covered by this contract: (a) the Grantee is not relieved of any of the duties and responsibilities provided in this contract; (b) the subcontractor agrees to abide by the standards contained herein or to provide such information as to allow the Grantee to comply with these standards, and; (c) the subcontractor agrees to allow state and federal authorized representatives access to any records pertinent to its role as a subcontractor.

The Grantee complies at

**Availability of Funds:** The parties to this Contract agree and understand that the payment of the sums specified in this Contract is dependent and contingent upon and subject to the appropriation, allocation, and availability of funds for this purpose to the Agency.

**Administered by:** Division of Water Resources (DWR), N.C. Department of Environmental Quality (DEQ), 1611 Mail Service Center, Raleigh, N.C., 27699-1611. Contact Amin Davis at [amin.davis@ncdenr.gov](mailto:amin.davis@ncdenr.gov) or (919) 707-9132.

**Authority:** DWR is authorized to provide grants to local governments for water resources development projects by General Statutes 143-215.70-.73 and 15A NCAC 02G .0100. These statutes can be viewed online at the following web addresses:

<http://www.ncleg.net/gascripts/Statutes/StatutesTOC.pl?Chapter=0143>

**Who is Eligible:** Units of local government and local political subdivisions.

**Application Deadlines:** Applications are received throughout the year for two standard grant cycles for all non-navigation projects listed below. The spring 2019 grant cycle began January 1 and will end at the close of business on June 30. The fall 2019 grant cycle will begin July 1 and will end at the close of business on December 31. **Any complete application submittals that are not received by these dates will not be eligible for review and funding for this application review cycle.**

**Eligible Purposes and Cost-Share Percentages:** The department may provide state funds in amounts not to exceed the percentages stated in G.S. 143-215.71 of either the non-federal costs (in the case of a federal agency project) or the total costs (in the case of a project not receiving federal funds). The General Assembly placed a 50% cost-share maximum on Water Resources Development Grant awards during their 2011 session. This limit will remain in place until rescinded by the General Assembly. Navigation and Natural Resources Conservation Service's Environmental Quality Incentives Program (NRCS-EQIP) stream restoration projects may be funded at a different percentage depending on the funding source. DWR can issue grants for the non-federal share of water resources development projects for the following purposes: Based on limited annual funding received for grant awards statewide, Applicants are generally encouraged to not exceed a \$200,000 funding request; however larger awards are allowed. **Additionally, it is recommended that Administrative costs not exceed 10% of the total project budget.** Grants may be made for the nonfederal share of water resources development projects for the following purposes:

- **Stream Restoration:** Restoration or stabilization of degraded streams & shorelines, aquatic barrier removals, etc.
- **Water Management:** Stormwater control measures, drainage, flood control, hydrologic restoration, etc.
- **Water-based Recreation Sites:** Greenways/Boardwalks, Paddle Access, Fishing Docks/Piers; land acquisition for water based recreation sites operated by local governments.
- **Preliminary Feasibility or Engineering Study:** towards implementation of one of the four eligible categories listed here.
- **NRCS Environmental Quality Incentives Program (EQIP) Stream Restoration Projects**
  - See *NRCS EQIP Grant Guidelines* document on grant's website below for details.

Please contact Amin Davis ([amin.davis@ncdenr.gov](mailto:amin.davis@ncdenr.gov)) for questions regarding projects listed above. Funding is also available through Water Resources Development Grant awards for dredging projects associated with General and Recreational Navigation. Applicants should contact Coley Cordeiro ([Coley.Cordeiro@ncdenr.gov](mailto:Coley.Cordeiro@ncdenr.gov)) for more information about the guidelines, eligibility and application process for these projects.

**Project Eligibility:** Projects planned and constructed by a federal agency with a local cost-share and projects without federal assistance are both eligible for state financial assistance provided that the applicant is a unit of local government. **Non-eligible purposes include projects directly associated with meeting an existing permit requirement (i.e., NPDES Phase I and Phase II Stormwater), generating nutrient credits, environmental regulatory enforcement actions and small watershed projects of the NRCS (reviewed by the N.C. Soil and Water Conservation Commission). Compensatory mitigation projects and the generation of compensatory mitigation credits for impacts to aquatic resources per the Federal Mitigation Rule (33 CFR Part 332) are non-eligible purposes.** Compensatory mitigation projects can be located directly adjacent to an eligible project for the purposes of achieving maximum ecological benefit. Should a compensatory mitigation project be conducted on land previously acquired using DWR grant funds the mitigation project sponsor shall reimburse either DWR or its grantee for the full value, plus appreciation, of the DWR investment in that portion of the land to be used for compensatory mitigation to ensure that DWR does not directly or indirectly subsidize the mitigation project.

**Pre-Application Site Visit:** A pre-application site visit shall be scheduled with the DWR Grant Administrator (or designee) to gather additional information regarding a proposed project to assist DWR in determining if the project meets the applicable review criteria listed in GS §143-215.72. **This site visit shall be scheduled with DWR prior to the end of the grant application cycle if possible. A scaled conceptual project plan map and brief project narrative shall be provided to the DWR Grant Administrator prior to this site visit. For greenway/trail projects, applicants are encouraged to flag proposed alignments if not in obvious rights-of-ways prior to a site visit.**

The primary objectives of this site visit are: 1.) for the DWR Grant Administrator (or designee) to address any questions or concerns the project team may have about this grant program; 2) for the project team to share with the DWR Grant Administrator (or designee) information about the conceptual restoration plans associated with a proposed project, and 3.) for the DWR Grant Administrator (or designee) to photo-document the project area to facilitate the application review process.

## **Application Submittal**

An application for Water Resources Development Grant funding shall include information about the five items listed below to be considered complete. Additional supplementary documentation (reports, photos, etc.) are not required but can be provided as separate attachments via email. The most recent versions of all required forms and grant information shall be used and can be found at the following website: <https://deq.nc.gov/about/divisions/water-resources/water-resources-grants/financial-assistance>. Please check this website frequently for updates.

**I. Application Spreadsheet (MS Excel) – The most recent version of the application spreadsheet shall be used.** All applications should include the appropriate project information in the designated sheets including contacts, general information, narratives, treatment amounts, benefits, budget, and budget in-kind notes. Detailed instructions about how to complete this application are provided on the *Instructions* sheet of this spreadsheet.

The project narrative shall begin with a statement outlining the overall project scope (what is being proposed), followed by the project justification (why it is being proposed). For stream restoration projects, a brief description of how the proposed stream treatments will mitigate the documented stream impairments shall be included. **Information about proposed riparian buffers (minimum/maximum or average proposed widths) and stream crossings shall also be provided. For Preliminary Feasibility or Engineering Studies, a brief letter on the Applicant's official letterhead shall be provided that clearly states: 1.) the primary purpose and objective(s) of this Study, 2.) the Applicant's intention to implement an associated WRDG-eligible project resulting from this Study, and 3.) the estimated project implementation timeline after completion of this Study. Studies may be used to more accurately determine project costs, benefits and/or scale of development.**

**The application budget will serve as the basis for the financial administration of the grant contract and reimbursement requests for projects that are awarded funding. Applicants shall list all sources of Non-Federal funding contributions on the application's Budget Sheet to minimize the potential for duplicative funding for identical work activities associated with a single project.** Costs associated with land acquisition are only reimbursable for eligible Water-Based Recreation projects. The costs associated with land acquisition or donation for non-Water-Based Recreation projects can designated as In-kind match for the project. **The complete application will be included in the DEQ contract documentation; therefore it is very important that its contents are accurate and complete.**

**II. Project Plan and Location Maps** – A minimum of two scaled maps is required. The first map shall include the project footprint delineated on a USGS topographic quadrangle map or overlain on recent aerial photography. This map shall be at a small scale (zoomed out) to show the project area within the context of a watershed, county or region. The second map shall be a conceptual plan that describes the location of project elements listed in the project narrative. This map shall be larger scale (zoomed in) to show greater detail within the immediate project area. 30% project design drawings shall also be provided if available.

**III. Official Resolution** - The Applicant shall include a resolution adopted by the governing board stating the amount of state aid requested and accepting the applicant's responsibilities. A representative of the Project Sponsor with signatory authority shall sign this resolution. An Official Resolution template is available for download from our grant [website](#). In most circumstances the responsibilities listed below shall be included in the Official Resolution. However, this resolution template can be adapted to fit the unique circumstances of a specific project. **Written justification shall be provided to DWR for any responsibilities listed below that are not included in the Official Resolution.**

1. Assume full obligation for payment of the balance of project costs.
2. Obtain all necessary state and federal environmental permits.
3. Comply with all applicable laws governing the award of contracts and the expenditure of public funds by local governments.
4. Supervise construction of the project to assure compliance with permit conditions and to assure safe and proper construction in accordance with approved plans and specifications.
5. Obtain appropriate easements, rights-of-way or suitable spoil disposal areas that may be necessary for the construction and operation of the project without cost or obligation to the State.
6. Assure that the project is open for use by the public on an equal basis with limited restrictions (if on public property).
7. Hold the state harmless for any damages that may result from the construction, operation, and maintenance of the project.
8. Accept responsibility for operation and long-term maintenance of the completed project.

*\* For “Feasibility / Engineering Study Grants” only Items 1 and 3 are required in the Resolution. See Study Resolution Template located on our [website](#).*

**IV. No Conflict of Interest Certification** – Applicants must provide certification that the applicant, applicant’s subordinates and any person or persons designated to act on behalf of the applicant do not have an actual or apparent conflict of interest with respect to the project. A representative of the Project Sponsor with signatory authority shall sign this certification.

**V. Supplementary Documentation** – Additional supplementary documentation (reports, photos, letters of support, etc.) is not required but can be provided as separate attachments via email as part of the application submittal.

Application submittal documents shall be emailed to [amin.davis@ncdenr.gov](mailto:amin.davis@ncdenr.gov) by the close of business of the last day of the application cycle. **If an application is submitted by a non-governmental organization (non-profit, consultant, etc.) on behalf of an eligible unit of local government, a staff person of that eligible unit of local government must be copied on the email submittal and all subsequent application-related correspondence.**

**Note:** It is the Applicant’s responsibility to ensure their application is accurate and complete at the time of submission to DWR. Any application errors or modifications must be submitted by the Applicant to DWR within 30 calendar days of the end of the Application Cycle in which the application was submitted. Erroneous or incomplete application information can also lead to significant delays with the issuance of a DEQ Contract should the project be recommended for grant funding.

DWR may not be able to grant requests for additional funding caused by inaccurate or incomplete information provided in the application or project budget. **Any changes to the original project budget and/or project scope submitted with the application will require the prior written approval of DWR.** Unapproved changes to the project scope or budget throughout the course of a project will not be eligible for cost-share funding or reimbursement.

## **Grant Application Review and Approval**

The following criteria will be used to approve, approve in part, or disapprove grant applications:

2. Regional benefits of projects to an area greater than the area under the jurisdiction of the local sponsoring entity;
3. The financial resources of the local sponsoring entity;
4. The environmental impact of the project;
5. Any direct benefit to State-owned lands and properties.

### **Applicant Obligation – Environmental Permitting**

All proposed projects are subject to environmental review and permitting under applicable federal and state laws. It is the applicant’s responsibility to prepare, provide and remain in compliance with all applicable environmental permitting requirements associated with project implementation.

### **Review Decisions**

**This is a competitive grant program due to limited funding availability. The grant's review criteria is contained within the *Benefits & Evaluation Criteria* sheet of the application form. A multi-agency review team comprised of various subject-matter experts reviews each application to assist the DWR Grant Administrator and Division Director with establish funding priorities. Applications that receive a total cumulative review team score of less than 50% will not be recommended for funding.**

Review decisions and notifications for applications received during the spring application cycle are generally made in October. Review decisions and award notifications for applications received during the fall application cycle are generally made in April of the next calendar year. However, unforeseen circumstances such as legislative, policy or funding allocation changes may delay award notifications.

### **Projects Not Awarded Funding**

Applicants who are not awarded funding within one calendar year from the end date of the grant cycle in which their application was originally submitted must complete and submit a new application to DWR if they wish to re-apply for funding consideration. A new application submittal will also be required if there have been changes to the project scope or budget. The spring grant cycle ends on June 30<sup>th</sup> and the fall cycle ends on December 31<sup>st</sup> of each year.

## **Post Grant Funding Award**

Acceptance of a grant award will require the applicant to enter in to a grant contract with DEQ. A DEQ grant contract is considered 'fully-executed' once it has been signed by both a signatory authority of the Grantee and DEQ Financial Services. A copy of the fully-executed contract shall be provided to the Grantee after being signed by DEQ. No portion of work or expenditure of funds for the project, plan or services shall begin prior to receiving a fully-executed contract from DEQ. **Contracts are valid for two years from the date the contract document is sent to grant recipient for contract execution.**

### **Contract Modifications**

**Any changes to the project's scope, budget or duration after a contract has been fully-executed will require the written approval from the DWR Grant Administrator and may also require a DEQ contract amendment.** Typical changes that require a contract modification are listed below.

**Project Scope/Budget Changes:** The minimum information that shall be supplied to the Grant Administrator for consideration includes a brief written narrative containing the justification for any proposed changes and revised scope of work; revised budget sheet and revised project plan/map to scale (if applicable). Unapproved changes to the project scope or budget shall not be eligible for, and may result in additional reductions to, cost-share funding or reimbursement.

**Extension Requests:** Grant recipients can submit an extension request for one additional year beyond the grant expiration date if progress toward project completion can be sufficiently documented. An extension request shall be submitted at least 45 days prior to the DEQ contract expiration date by the project sponsor or primary contact via email in a cover letter on official agency letterhead. This request shall include a justification statement, current project status update and anticipated project schedule moving forward.

Any documentation associated with a contract modification should be submitted electronically to [Amin.Davis@ncdenr.gov](mailto:Amin.Davis@ncdenr.gov).

### **Grant Reimbursements**

The grant award amount is the maximum possible reimbursement amount. Only expenditures incurred after a fully-executed contract has been issued that are detailed in the contract budget and are considered eligible

reimbursable expenses in our *Reimbursement Instructions* document are eligible for reimbursement. Allowable expenditures are expenditures associated with the work performed for a specific invoicing cycle that are in accordance with the DWR-approved application budget sheet for the project. **Reimbursement requests can be submitted no more frequently than monthly but must be submitted at least quarterly.** DWR will normally pay the Grantee by check or electronically within 30 days of receipt of a complete reimbursement payment request, provided the expenses are in accordance with the budget/contract, or as amended. If the Grantee decides that significant changes to a project's scope from that in the original application are necessary, the Grantee must send a request in writing to the DWR Grant Administrator and receive approval of those changes. Unapproved changes will not be eligible for state cost-sharing. **Grantees shall submit reimbursement requests in accordance with their fully-executed DEQ Contract and the *Reimbursement Instructions* document on our [website](#).**

**Reimbursement requests shall include:**

1. A Cover Memo/Letter signed and dated on the Grantee's official letterhead that lists:
  - a) DEQ Contract Number
  - b) total amount of the reimbursement request
  - c) actual cost (expenses) by approved budget categories
  - d) total amount spent on the project to date
2. Copies of subcontractor invoices or other documentation of materials, services and other project costs listed on the subcontractor's letterhead.
3. A completed *Reimbursement Tracking Summary* spreadsheet.

**The reimbursement request and supporting documentation should be submitted electronically to [Amin.Davis@ncdenr.gov](mailto:Amin.Davis@ncdenr.gov).** DWR will retain 10% of the total grant award amount until after the final project has been inspected and accepted by DWR staff.

**\*\* An example reimbursement summary table is provided as *Attachment 1* at the end of this document.**

**Requests For Additional Funding**

Grant recipients can submit a request for additional funding consideration to DWR for a maximum of 25% of the maximum grant award, not to exceed \$100,000. This request shall be submitted by the project sponsor or primary contact on a cover letter with official agency letterhead via email. The following information shall be submitted by the Grantee to DWR for additional funding consideration:

- a narrative describing the circumstances/need for an increased funding award, summary of current project status and anticipated project implementation schedule.
- copies of all subcontractor invoices for design, permitting, surveying, construction, construction oversight and project administration.

DWR will review this information and respond to the Grantee with a decision regarding increased funding within 30 calendar days. Funding increases are subject to the availability of funds and to DWR's actual cost reimbursement policy. **DWR may not be able to grant requests for additional funding caused by inaccurate or incomplete information in the application or project budget provided by the Applicant or Co-Applicant.**

## **Project Close-Out**

**The Grantee shall notify the DWR Grant Administrator upon project completion and provide DWR with a scaled version of the most recent set of permit, as-built/record or construction drawings electronically in an Adobe PDF format prior to the close-out site visit.** Applicants who are awarded funding for Feasibility/Engineering Studies shall provide DWR with the associated summary report(s) and deliverables in an electronic format.

The DWR Grant Administrator may schedule a close-out inspection of the completed project with a representative of the Grantee. However, DWR may also substitute its personnel with that of other state or federal agencies that are located closer to the project to minimize the state's costs. This inspection will verify that the project was implemented in accordance with the information provided in the grant application, DEQ contract (including amendments, if applicable) and approved plans/specifications.

The Grantee shall address any remedial or compliance actions identified during this close out inspection prior to DWR project acceptance. After the project is inspected and accepted, DWR will review the accounting statements and request DEQ to reimburse the Grantee for the remaining 10% of the department's share of the non-federal cost.

In areas where banks are eroding, bank grading will lessen steep slopes and allow for the installation of bioengineering practices to quickly establish native riparian shrubs and their stabilizing root masses. In-stream structures will be used to provide grade control in the river bed and direct flow to the center of the channel, which will help reinforce stabilized banks and promote the formation of riffles and pools. The primary goal of the program is to stabilize the eroding banks and river bed using natural materials such as stone and wood and native riparian plantings.</p> |

In recent years, multiple large flood events have caused several feet of lateral bank migration, the loss of several mature trees and the formation of persistent mid-channel sediment bars. Left unchecked, the condition of the river will continue to degrade water quality and aquatic habitats, and threaten park facilities on the left bank and a sanitary sewer main on the right bank.</p>                                                                                                                                                          |

| 1000                       | <p>This section of the river is on the 2004 list. Increasing water quality in this urban location is beneficial to the outdoor tourism economy. Including boat fishing it will also help protect public investment in the park which includes four baseball fields, disc golf, and trails.</p> | <p>The town is collaborating with Pequot River Farm, Duke Energy, Pequot, and the Pequot National Monument to provide a series of educational opportunities for students and the public. Younger students will be conducting studies of the area and participating in hands-on aquatic ecology on the site. The collaborating bank near the upstream end of the project area is in a light meadow used for mowing and grazing. Over the past two years alone, it has lost bank near the upstream end and has eroded over 3 feet and is highly variable. Disc golfers and greenway users often walk very close to the top of bank, which is eroding. The project will add a series of educational kiosks or signs along the meadow reach explaining the goals and benefits.</p> | <p>This section of the river is the 2004 list of beneficial activity. Stabilizing and restoring the river will contribute to the health of the river ecology. The town is also has also required immediate rules to contribute to the success of the project.</p>                                                                                                                                                                                                                                                                                                             | <p>Relative collapsing banks contributing to sediment and poor riparian zone quality, reduce fine sediments. These will include improving water quality by removing mid-channel sediment deposits and stabilizing stable riverbanks. This will support improved aquatic habitats for native species. On the right bank, lateral channel migration has brought the channel within 15 feet of the sanitary sewer main.</p> | <p>There will be environmental improvement opportunities and education opportunities to the public. The project will also improve the sediment load moving through the watershed.</p> | <p>This project is not within or adjacent to state owned property. However, it is in close proximity to a NC DOT underpass and NC DOT roadways both would have been impacted by the project. Road conditions could be somewhat improved by the project.</p> |
