1. Certificate of Appropriateness Request for 114 Cherry Street

Rob Atema at 114 Cherry Street is seeking a Certificate of Appropriateness to enlarge the existing deck, add pebble dash to the sides of the building, and remove the tile from the brick on the front of the building. The deck will be twelve feet by fifteen feet and will remain the same height. Mr. Atema plans to clean the upper brick and treat the brick that is under the tiles. The tiles are on hardiboard so removing them will not damage the brick. The pebble dash will be an off-green color (Sherwin William's Night Owl), all of the trim will be black, and the door will be red (Sherwin William's Red Barn). The old fence and the old Hop sign on the side of the building will be removed. The deck will be constructed of heavy timber per the requirements of the fire district and the lattice will either be black or the off-green color. Anything that is not brick will be pebble dash. The picket fence will remain but will be taken down during construction. Amy Pate made a motion to approve the Certificate of Appropriateness. The motion was approved by a vote of 3-0.
